

Introducing the

VascuTherm 3

A Faster Way to Recover

A safe, effective, convenient therapy solution and a new reason to be optimistic about your recovery. Portable and intended for home use the **VascuTherm 3** delivers a solid-state technology that eliminates the need for ice, offers precise temperature control and delivers exceptional reliability.

The **VascuTherm 3** offers dedicated compression at the wound site making the hot and cold therapy more effective. The result is faster wound healing, a reduction in swelling, greater mobility, and less time away from what's really important to you.

The **VascuTherm 3** offers a wide variety of therapeutic wraps accomodating almost any body part making the device the most versatile technology in the marketplace today.

More about the

VascuTherm 3

Believe in Your Recovery

The **VascuTherm 3** offers no interruption in your therapy due to melting ice or unbearable temperatures. You can manage your pain without the use of medication and there is absolutely no risk of damaging the skin. The device is delivered to your door and your therapy begins with the push of a button. Hands-free technology allows you to focus on other things while the soothing therapy helps your body recover.

Free yourself from pain.

Get back to what you love to do.
